Research topic:

Adapted from Dessai and Hulme, (2004)

Corentin Girard – UPV Valencia-Spain

Relevance of the training:

- To go beyond an action oriented “procedural “ framework, **towards a analysis oriented conceptual framework**
- From single loop learning to **triple loop learning**
- To evolve from interdisciplinary to **trans-disciplinary** research
- To take the first steps towards a **comparative analysis of governance systems in the planning of adaptation of water resources systems** in two river basins (France/Spain)
