‘Governing water justly: evaluating the effectiveness of participatory urban water development programs among the marginalised’

**Francesco Gimelli**

Supervisors:

Prof. Jacqui True

Dr. Briony Rogers

**Aim:** to develop an evaluative Water Justice Framework that can be integrated into mainstream participatory urban water governance approaches in cities in the Global South.

**Objectives:**

- Create a conceptual framework for evaluating the justice of PUWD programs among the marginalised;
- Reveal the strengths and shortcomings of current PUWD programs through rigorous empirical case studies;
- Derive policy and practical guidelines to ensure PUWD programs develop the capabilities of the marginalised through a Water Justice Framework.

**My participation in the Autumn School:**
