

The Inclusion of Environmental Considerations in Transboundary Water Agreements

Jacob Petersen-Perlman

*Post-doctoral scholar, Ken Albermann Fellowship in Water, Society, and Geopolitics
Hebrew University of Jerusalem
Jerusalem, Israel*

Research questions:

- What conditions are needed for environmental consideration in international water agreements?
- Under which circumstances do agreements have adverse environmental effects?
- Under which circumstances are amendments created to address environmental effects caused by original agreements?

Expectations of training

- Will help to refine my research
- Exposure to new theoretical frameworks, methodologies, databases
- Build network connections, foster research ideas
- Strengthen my theoretical background
